

HASHEM GHASSABAN

UI/UX Frontend Developer

PROFILE

Hi

Over the course of 8 years (4 years as professional web developer), I have gained vast experience in web, User Experience and embedded software developing. I deliver digital creative solutions and simple working interfaces and constantly learning and striving to do my very best. In addition to the web developer as an analyst in projects, I've been working on the design side of the entire project. My goal is to provide a better job than my previous work.
