## Summary

I'm a software engineer with 8 years of experience in creating user-friendly, responsive, and high-performance web applications using HTML5 & CSS3, JavaScript, and various frameworks and libraries. Proficient in using tools and technologies such as React, Aurelia, Vue, Bootstrap, Tailwind, jQuery, REST, Vuex, Git, and more. I worked on projects for clients in different domains, such as e-commerce, education, financial markets, and more. Eager to learn new skills and technologies and keep updated with the latest trends and developments in the web industry. Seeking to join a reputable company as a front-end developer and contribute to its projects and goals.
